What You'll Learn

- In this lesson, you will learn about the background and categories of Node modules, including core modules, external modules, and local file-based modules. You'll also be introduced to the CommonJS format for Node modules, including using the require and exports syntax for importing and exporting modules.

Additional Resources

- MDN - JavaScript modules
- FlavioCopes - Introduction to CommonJS
- FreeCodeCamp - Requiring Modules in Node.js - Everything You Need To Know
- NodeJS - What is Require?
